J. ERIC DIETZ, EXECUTIVE DIRECTOR

*Indiana Department of Homeland Security
Indiana Government Center South
302 West Washington Street
Indianapolis, IN 46204
317-232-3980*

May 30, 2007

All Indiana Fire Departments:

In the very near future, your fire department will receive a fire station database Information request from Explore Information Services, L.L.C. Explore is under contract (Federal Contract #HM157304C0007) with the National Geospatial-Intelligence Agency (NGA) to develop and maintain the National Fire Station Database. NGA is the lead Federal Agency responsible for Geospatial Intelligence within the Federal Defense and Intelligence community. This survey is an integral part of Geospatial Intelligence systems, supplying critical data to the Federal Department of Homeland Security. Currently, this and other layers of data are used for strategic planning, risk and vulnerability assessments.

This is an important effort, providing critical infrastructure and response information to Federal Homeland Security officials. Indiana Department of Homeland Security is recommending and encouraging all Indiana Fire Departments to participate by completing this survey when they receive it.

If you have any questions regarding this important project or survey please feel free to contact Michele Cook at Explore Information Service. Ph: 651-681-4447, 800-531-9125 (Ext. 4447) Email: michele.cook@exploredata.com.

Thank you in advance for your participation and assistance.

Sincerely,

J. Eric Dietz, Executive Director
Indiana Department of Homeland Security
